TABLE OF CONTENTS

01 Why Dropshipping Still Works in 2026
The model, the opportunity, the reality check →

02 Finding Winning Products
TikTok mining, AliExpress data, the €15–€40 sweet spot →

03 Setting Up Your Store in 2 Hours
Shopify, Dawn theme, DSers, payment setup — the checklist →

04 TikTok Organic Traffic: The Free Customer Machine
Hook formula, filming, posting cadence — zero ad spend →

05 Scaling to €2,000/Month
Reinvest, lookalike audiences, automate ruthlessly →

CHAPTER 01

€0	15–30%	3–5d	1 person
INVENTORY RISK	NET MARGIN	EU FULFILLMENT	REQUIRED

Dropshipping isn't dead. It's evolved. Ignore the gurus claiming saturation killed this model. In 2026, dropshipping remains one of the fastest paths from €0 to €2,000 monthly because the barriers to entry have collapsed while the execution tools have exploded. The model works if you work.

Zero inventory risk changes everything. You don't lease warehouse space. You don't gamble €5,000 on stock that might rot in your garage. You pay suppliers only after customers pay you. This preserves cash flow for the only thing that matters: marketing. Test ten products simultaneously without bankruptcy risk. Kill losers fast. Scale winners faster.

KEY ADVANTAGE

Global supplier networks have matured. US and EU-based fulfillment centers now stock trending items with 3–5 day delivery. Build relationships with vetted agents on CJ Dropshipping or private sourcing agents. Quality control matters more than price now.

TikTok organic traffic demolished the old Facebook Ads tax. You no longer need €50/day ad budgets to test products. Create authentic, raw video content

showing the product in action. Post three times daily. Hook viewers in 0.5 seconds. If your content hits, you get millions of views and sales for free.

AI automation eliminated the tedious work. ChatGPT writes product descriptions in seconds. AI video tools generate TikTok creatives from static images. Automated order fulfillment apps sync inventory in real-time. You now run a one-person operation that required three virtual assistants in 2023.

REALITY CHECK

Margins hover between 15–30% after refunds and payment fees. Expect to reinvest every euro for the first three months. This isn't passive income. You will work evenings troubleshooting supplier delays. Success requires testing 20 products to find one winner.

> *"Start tonight. Find one product. Shoot the video. The infrastructure is waiting."*

CHAPTER 02

Product selection determines 80% of your success. Get this wrong and marketing won't save you. You need a systematic hunt, not guesswork.

1. **Mine TikTok for Validation** — Search "TikTok made me buy it" daily, filter last 30 days. Look for 100K+ view videos on products under €40. Check comments for "link?" — high engagement signals buying intent.

2. **AliExpress Data Mining** — Navigate to AliExpress Dropshipping Center > Bestsellers. Filter by orders in last 30 days, rating above 4.6 stars. Cross-reference with TikTok finds. 500+ recent orders = test immediately.

3. **The €15–€40 Sweet Spot** — Never sell below €15 (can't absorb ad costs). Never exceed €40 (impulse buyers hesitate). This range hits the impulse zone while allowing healthy margins.

PROFIT MARGIN FORMULA

```
Selling Price - Product Cost - Shipping - Payment Fees (2%) - Ad Spend (30%) = Net Profit

Example: €25 product, €7 cost + €3 shipping = €6.25 net per sale · Target: 25% minimum
```

3 WINNERS RIGHT NOW

1. **Magnetic Phone Mounts** — TikTok viral, €8 cost, sells €24
2. **Portable Blender Bottles** — Health trend, €12 cost, €29 price point
3. **Car Seat Gap Organizers** — Problem-solver, €5 cost, €19 retail

Test one per week. Kill losers within 48 hours of zero sales. Scale winners hard.

CHAPTER 03

0:00 **Platform Choice (0–15 min)** — Choose Shopify. €29/month includes hosting and security. Install Dawn theme (free, fast). Buy domain through Shopify. Skip DNS headaches.

0:15 **Basic Setup (15–45 min)** — Upload logo (Canva, 400×100px). Create 3 pages: About Us, Shipping Policy, Refund Policy. Add Tidio live chat (free). Disable password page. You're live.

0:45 **Product Pages (45–90 min)** — Import via DSers. Delete vendor watermarks. Titles under 60 chars. Replace descriptions with bullet points — benefits first. Install Ultimate Sales Boost + Judge.me (both free). Import AliExpress reviews immediately.

1:30 **Payment Setup (90–105 min)** — Activate Shopify Payments. Add PayPal as backup (30% of customers prefer it). Set payout to daily. Test with Bogus Gateway first.

1:45 **Shipping (105–120 min)** — Two zones: Domestic + International. Flat rates: €4.99 standard, €9.99 express. Display 7–15 day delivery. Never reveal dropshipping origins.

LAUNCH CHECKLIST

Test mobile view · Check payment flow · Verify contact email · Enable compare-at prices (40% higher) · Stock counter active · Reviews imported → **Launch.**

CHAPTER 04

TikTok is your zero-cost traffic engine. You don't need ads to hit €2,000 months. You need scroll-stopping content filmed on the device in your pocket.

THE HOOK FORMULA (EVERY VIDEO)

PROBLEM (show the pain) → REVEAL (hint at the fix) → SOLUTION (product crushes the issue) → CTA (link in bio)

FILMING PRINCIPLE

Phone only. 9:16 vertical. Natural window light. $10 tripod or books. **Raw authenticity beats polished ads on TikTok.** Users smell marketing from miles away. Film like you're texting a friend.

Product Unboxing Videos convert cold traffic. Order the product to your house. Film yourself opening the package in real-time without cuts. Let them see genuine surprise.

Reaction Videos require zero inventory. Find viral videos in your niche. Stitch or duet them. Show your face reacting to the problem, then produce your product as the answer. **Your facial expression is the hook.**

3-5x	7-9am	12-1pm	7-11pm
VIDEOS/DAY	BEST SLOT 1	BEST SLOT 2	BEST SLOT 3

> *"Stop overthinking. Film one video right now using the hook formula. Post it today. The algorithm rewards momentum, not preparation."*

CHAPTER 05

RULE #1

Don't withdraw a cent until you hit €2,000 monthly profit. Reinvest 100% of early revenue into Meta ads. Start with €10–€20 daily. Run 72 hours minimum before judging. Once CPP drops below margin, increase spend 20% every 48 hours.

Build Lookalike Audiences after 50–100 sales. Stop guessing with interest targeting. Upload your customer list to Meta Ads Manager, create 1% Lookalike Audiences. They share behavioral DNA with your buyers. Lookalikes reduce CPA by 40–60% once seasoned.

SCALING RULES

```
ROAS > 3.0 → Double down · Budget increase max 30%/day · Kill if ROAS
< 2.0 after €50 spend
Test 3 creative angles per winner before horizontal scaling
```

Automate Ruthlessly — Install DSers to automate AliExpress fulfillment. Enable automatic order placement. This eliminates overselling and saves 15+ hours weekly. Manual work doesn't scale. Systems do.

THE €2,000 EQUATION

> Reinvest relentlessly. Trust data over intuition. Automate before you feel ready. Cut losers within 72 hours. Scale winners slowly. Master Lookalikes. Execute without deviation.
